DESCRIPTION OF SUBJECT:

FACTS OF COMPLAINT: Informant is with the Security Research Branch, Office of Secretary of Defense, Office of Public Information at the Pentagon. He telephonically informed that the Boeing Aircraft Company, Wichita, Kansas, had sent some materila in which he thought that the FBI would be interested in and whould like to look at. Boeing informed that a Robert F. Dorr, 2502 Gaither Street, S. E. Washington, D. C. has frequently written to them inquiring for photographs of airplanes and for information about refueling planes. New Boeing has received a letter from an F. B. Newman who uses the same address and makes similar inquiries. The Newman letter appears to have been written on the same typewriter that Dorr has used and in fact seems to have been written by Dorr as the handwriting in the signature appears similar and Wichita has been misspelled in all of the letters. Major Orr felt the FBI would like to check on the matter as a possible espionage matter. He was advised that an agent would check with him to see the material Boeing had sent in. The WFO has no record on Dorr or Newman. On 1-11-54 Major informed that subjects in their requests to Boeing had asked for material that is classified and that it was necessary for Boeing to turn them down. This was true in regard to the refueling planes.

Major [redacted] also presented a memorandum from the Boeing Airplane Company, dated October 31, 1953, from the Wichita, Kansas Office to their Seattle Office, which contained information that indicated that they considered the letter from NEWMAN to be somewhat different from previous requests for photographs, inasmuch as previous requests have been for more modern airplanes or late developments. This letter also indicated that the Boeing Airplane Company had refused DORR his last two requests for photographs.

On January 13, 1954, Confidential Informant T-1, of known reliability, advised the writer that ROBERT F. DORR, 2502 Gaither Street, S. E., Washington, D. C., believed to be identical with one of the subjects, was the 14 year old son of LAWRENCE G. DORR, of the same address. Further, that ROBERT F. DORR [redacted] T-1 further advised that LAWRENCE G. DORR had been employed for 24 years at the Government Printing Office, Washington, D. C.

The files of the Credit Bureau, Washington, D. C., as reviewed by SE JAMES A. ROBERTS on January 19, 1954, revealed that LAWRENCE G. DORR, born 1911, had been employed at the GPO, Washington, D. C., as a compositor since October 1, 1929. His wife, BLANCHE BOISVERT DORR, was formerly employed at the GPO as as proof reader from October 1921 to 1938. The credit record indicated that LAWRENCE DORR had a satisfactory credit rating.

A search of the Washington, D. C. Telephone Directory for 1953, in reference to F. B. NEWMAN was made with negative results.

On March 26, 1955, Special Agent HERBERT DUNNING, Detachment Commander, Office of Special Investigation, Loring Air Force Base, Limestone, Maine, whose office also has jurisdiction at the Presque Isle Air Force Base, Presque Isle, Maine, provided information to Special Agent [redacted] regarding two letters written by a ROBERT F. DORR, 2502 Gaither Street, Southeast, Washington 21, D. C., to the Information Service Officer, 314th Fighter Interceptor Squadron, Presque Isle Air Force Base, Maine.

In the first letter, dated November 29, 1954, the subject requested a photograph of a USAF F-94B aircraft, indicating that he was an admirer of this type of craft and desired a photo. The Presque Isle Air Force Base furnished the subject a photo of this aircraft.

The next letter, dated February 25, 1955, requested information regarding USAF Northrop F-89D, Scorpion Jet, in that the subject desired a photo of the craft on the ground and in flight; he wondered if it carried 6,20 M.M. cannons in addition to the 104 Air to Air rockets and whether these rockets were for armament. The subject was advised, in answer to this letter, that the information he had requested was classified information and could not be released.

These two letters are being retained by O.S.I., Loring Air Force Base.
